SACRAMENTO UPDATE

Pursuit of County Position on Legislation

AB 2280 (Leno), as amended on June 28, 2006 would extend the authority of health care providers to treat partners of persons with sexually transmitted diseases. In addition, the bill would require the California Department of Health Services (CDHS) to develop a counseling model for all persons who receive HIV testing at an alternative test site or clinic that receives State funding for HIV testing.

Existing law permits a physician or nurse practitioner who diagnoses a sexually transmitted Chlamydia infection to prescribe, dispense, furnish, or otherwise provide prescription antibiotic drugs to that patient's sexual partner or partners without examination of that patient's partner or partners. AB 2280 would extend these provisions to include treatment of gonorrhea and other sexually transmitted diseases determined to be appropriate by the CDHS.

A recent Senate Health Committee analysis reports that since enactment of patient-delivered therapy for Chlamydia, published studies have documented that the rate of persistent or recurrent infections of gonorrhea has been reduced by utilizing patient-delivered therapy for sex partners. Patient-delivered therapy for gonorrhea has recently been recommended by the Federal Centers for Disease Control and Prevention.

The Department of Public Health (DPH) indicates that assuring treatment of infected persons' sex partners is a central component of prevention and control of bacterial sexually transmitted diseases, and that patient-delivered therapy is safe and effective when provided with appropriate instruction.

The second component of AB 2280 would require the CDHS to develop a counseling model for all persons who receive HIV testing at an alternate test site or clinic that receives State funding for HIV testing. It would require the Department to consider including in the counseling model flexibility for clinics to determine the extent of counseling provided to a test subject based on a test subject's risk factors or frequency of HIV testing.

While DPH supports the intent to ensure an efficient HIV counseling and testing model, the Department indicates that legislation in this area is unnecessary as a solution to address concerns with the current counseling model has already been developed by the State Office of AIDS. A legislative approach would result in a statutorily inflexible HIV counseling model that may not allow for appropriate or timely shifts in best practices as the HIV epidemic evolves, and may compromise the comprehensive counseling approach supported by the County.

Because patient-delivered therapy is a sensible public health measure that will reduce gonorrhea infections in California, but the HIV counseling model in AB 2280 may compromise the comprehensive counseling approach, DHS recommends that the County support AB 2280 if amended to remove the HIV counseling model component, and we concur. Consistent with County policy to support proposals to reduce the spread of sexually transmitted diseases, and support the provision of comprehensive HIV education, counseling and testing, **our Sacramento advocates will support AB 2280 if amended to remove the HIV counseling model component.**

AB 2280 is sponsored by the AIDS Healthcare Foundation and supported by the American College of Obstetricians and Gynecologists (California), Bienestar Human Services Incorporated, California National Organization for Women, Center for AIDS Research, Education and Services, Drug Policy Alliance Network, Gay and Lesbian Adolescent Social Services, and the San Francisco AIDS Foundation. There is no registered opposition. AB 2280 passed the Senate Health Committee on June 27, 2006 by a vote of 9 to 0 and is scheduled for hearing in the Senate Appropriations Committee on August 7, 2006.

SB 1719 (Perata), as amended on May 24, 2006, would make permanent the statutory provisions that allow the apportionment of motor vehicle fuel sales tax revenues to the State Transportation Improvement Program (STIP) and local transportation programs beginning in Fiscal Year 2008-09, and allow the Traffic Congestion Relief Fund (TCRF) to sunset.

The TCRF was established by the Legislature in 2000 pursuant to AB 2928, which created the Transportation Congestion Relief Plan (TCRP) of transportation projects to be funded from the State's share of sales tax revenue derived from the sale of motor vehicle fuel, and provided revenues for the STIP and local agencies for transportation purposes. The fuel sales tax revenues are deposited in the Transportation Investment Fund (TIF), which are then transferred to the TCRF to finance the TCRP.

In 2002, the voters passed Proposition 42 which made permanent the transfer of State sales tax revenues from the motor vehicle fuel sales to transportation programs. The TCRF and the authorization to allocate the revenues to the STIP and local agencies are scheduled to sunset on June 30, 2008. Because of the sunset provision in existing law, there is no statutory direction for implementing the revenue distribution requirements of Proposition 42 beyond June 30, 2008. SB 1719 would fix this by allowing an annual transfer of sales tax revenue from the General Fund to the TIF of \$1.4 billion on a permanent basis.

The Department of Public Works (DPW) indicates that SB 1719 would allow the department to continue to receive their annual portion of Proposition 42 revenues that are deposited into the TIF, which are used to fund local roads in the unincorporated areas of the County. DPW recommends that the County support SB 1719, and we concur.

Support for SB 1719 is consistent with existing policy to support the direct allocation of funds to local governments for the preservation of local streets and roads, without reducing other transportation funds. Therefore, our Sacramento advocates will support SB 1719. There is no known support or opposition to this bill at this time. SB 1719 is set for hearing in the Assembly Appropriations Committee on August 9, 2006.

AB 2951	Goldberg	Oppose Unless Amended to explicitly provide that it has no retroactive effect, as well as to keep intact the existing "non-discriminatory requirement with respect to capital facility fees (State Update: 3/22/06)	Would change the way public utilities charge public agencies for capital costs. Under current law, certain fees charged to public agencies, such as the County, by public utilities, such as the Los Angeles Department of Water and Power (LADWP), must be "nondiscriminatory". This means that LADWP is only allowed to charge the County its pro-rata share of LADWP capital costs based on the County's power usage. This bill effectively seeks to eliminate the "nondiscriminatory" rate requirement in existing law and thus relieve LADWP of its current legal duty to charge the County only its pro-rata share of LADWP capital costs. This bill would permit current franchisees to apply for State-issued franchises upon expiration of their current agreements, require municipalities to permit the installation of networks by holders of State-issued franchises and preclude enforcement of consumer protection standards by local governments. Under the terms of existing franchise agreements, which are monitored by the County's Department of Consumer Affairs, the County manages public rights-of-way, collects approximately \$4 million annually through a five percent fee on gross revenues, imposes Public, Educational, and Governmental (PEG) channel requirements, and protects consumer interests.
